Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The object of the interview was to find out about the legal basis behind which the Examiner had objected to the declaration under CFR 1.48b by Applicant. The Examiner explained that questions about removed claims were raised for lack of explanation by Applicant in order for the CFR declaration to truly meet the basic requirement of this MPEF rule, i.e. inventorship change founded on any change of claims (§ 1.48b), in spite of the fact that in surface the declaration appears to be proper. The Examiner also helped clarify Applicant's inquiries concerning how the claim can change to overcome a statutory rejection. Finally suggested was that the Applicant files a AF request of consideration, explaining or identifying specifics to the change of subject matter in relevance to the removal of some inventor; and based upon which, the Examiner indicated that the Office would reconsider the case to the effect of either hopefully put the claims in condition for allowance; or re prosecuting the claim with proper merits given to the above declaration; but the above actions would be pending on a written response or AF request for consideration.
